# ECONOMIC IMPACT OF CALIFORNIA'S PISTACHIO INDUSTRY IN 2022

<sup>1</sup> Considered the best measure of economic activity. Total Economic Impact is a compilation of the direct impact, the indirect impact, and the induced impact generated in the economy as a result of the industry.

<sup>2</sup> Jobs are measured on a full-time equivalent basis, and are in the agricultural industry and in a wide range of other industries as a result of grower spending and labor income created.
